## Emergency First Response

### Requirement

Diver certificate is not required

No Minimum age

### Course Structure

Emergency First Response is an innovative first aid program with comprehensive instruction in Primary Care (CPR) and Secondary Care (first aid). Emergency First Response Primary Care (CPR) addresses immediate life-threatening emergencies. The Emergency First Response Secondary Care (first aid) course covers secondary patient assessment and first aid. Both courses use a combination of Knowledge Development, Skill Development and Scenario Practice to ensure participant knowledge, understanding and application.
