

PADI Open Water Diver

This diving course is undertaken by qualified and experienced instructor belonging to the world's leading scuba diver's education organization, PADI. Participants will be exposed to a wide range of basic and necessary diving skills and knowledge in both theoretical and practical terms. It is one of the most professional and safest approaches to becoming an internationally recognized diver.

Upon completion of this course, an international diver certificate will be awarded. Certified divers will be able to explore the fascinating and thrilling undersea world joining PADI facilities and centers around the world. Interested divers can then gain further qualification in the field by taking the advanced diver's course.
